

ERA  
LEARN  
2020

**Annual ERALEARN Conference  
Parallel Workshop day 2 | Topic 1: ERA-  
LEARN 2020 – How can the IT platform  
better serve community interaction,  
mutual learning and P2P promotion?**

**Results of the survey, discussion (DLR, Kristof Bertram)**

## Survey Analysis

- 102 users in total participated - Answers given by users (multiple choice possible)
  - 59 users ERA-NET-Projects
  - 40 users Joint Programming Initiatives
  - 21 users in Art. 185 Initiatives
  - 19 users Other relationship to P2P
- Experience with P2P activities
  - More than 5 years - 57 users
  - 1-5 years experience - 25 users
  - Less than 1 year – 19 users
- Using the ERA-LEARN material provided on platform
  - yes, on a regular basis – 23 users
  - Rarely – 28 users
  - Never until now – 6 users

## 1. Alignment activities

### Possible support through IT platform

- New feature: whole section on Alignment <https://www.era-learn.eu/monitoring-and-assessment/internal-review>
- New learning material on Foresight

## 2. Exploitation of results

Improving the knowledge circulation and take up of innovation

### Possible support through IT platform

- Possible new feature: Sharing of **Best Practice Examples** via ERALEARN 2020 (e.g. take-up of business, academia to business)

### 3. Widening Network Participation

#### Possible support through IT platform

- New feature: Partnering Tool
- Possible new features:
  - Statistics about participation of EU13 Member States
  - Relevant links to using Structural Funds
  - Insert News link to other important platforms

## **4. Securing or increasing joint call budgets by higher national and regional commitments or other sources**

### **Possible support through IT platform**

- Highlight success stories
- Download promotion material with benefits for participating countries <https://www.era-learn.eu/publications/ec-publications>

## 5. Evidence and measurement of impact created by P2P networks

### Possible support through IT platform

- Central ERA-LEARN network assessment tool
    - Common set of basic indicators for P2P networks
    - Specific sets of indicators for different types of networks
    - Comparison, benchmarking, marketing & promotion
- Subject to discussion in group work

## Key messages – Common User Needs

Highest ranks:

1. Alignment activities e.g. coordination of strategic research and innovation agendas in overlapping areas
2. Exploitation of results: Improving the knowledge circulation and take up of innovation
3. Widening network participation with new partners from Europe and beyond
4. Securing or increasing joint call budgets by higher national and regional commitments or other sources
5. Evidence and measurement of impact created by P2P networks

Attention to lowest rank:

- Using interactive knowledge sharing platform for P2P networks with dedicated user groups
