

Network Cooperation – How to increase the relevance and impact and facilitate cooperation between the P2Ps?

Speaker: Jennifer Cassingena Harper

Annual Joint Programming Conference 2017

Brussels, November 8th, 2017

Session 2: Environment and Climate Change

Our focus today

- Climate and environmental challenges up to 2030
- Examples of how P2Ps can work together in this thematic area
- Forward look:
 - Increasing relevance of P2Ps
 - Enhancing the impact of P2Ps
 - Facilitating cooperation between P2Ps
- Improving ERA-LEARN support

Questions for discussion

- How can R&I networks collaborate with other stakeholders active in the same thematic remit?
- On which topics should the thematic networks cooperate?
- How to identify mutual benefit and increase impact?
- What has worked well so far and what could be done differently?

Support of P2Ps by ERA-LEARN

- What ERA-LEARN can offer or is providing to P2Ps?
- What has worked well so far
- What could be done differently
- What other services could be offered in the future

Our agenda today

- Pilot activities from networks – An example what P2Ps could do together in this thematic area
 - Boosting shared use of infrastructures (in the Baltic Sea region), coordinator Kaisa Kononen, BONUS (Art 185)
- Network cooperation: Panel discussion on
 - How to increase the relevance and impact and facilitate cooperation between the P2Ps in this area?
- Services provided by ERA- LEARN
