Joint Calls 2013-2016

Pilot Call

Identification and prevention of emerging freshwater contaminants

Control, mitigation and methods for treatment and removal

Impact on ecosystems services and human health

€ 9 million

7 projects

WaterWorks2014

Water Treatment, Reuse, Recharge and Desalination

Mitigate Impacts of Extreme Events (Floods and Droughts) at Catchment Scale

€ 14 million – 16 projects

WaterWorks2015

Increasing the efficiency and resilience of water uses

Monitoring and reducing water consumption and water pollution

Integrating social and economic dimensions into the sustainable management and governance of water resources.

€ 18 million – 21 projects

€40 million
(national funds + EC cofund)

The First Joint Call between 2 JPIs

Sustainable management of water resources in agriculture, forestry and freshwater aquaculture sectors by:

1. Increasing the efficiency and resilience of water uses
2. Monitoring and reducing soil and water pollution
3. Integrating social and economic dimensions into the sustainable management and governance of water resources

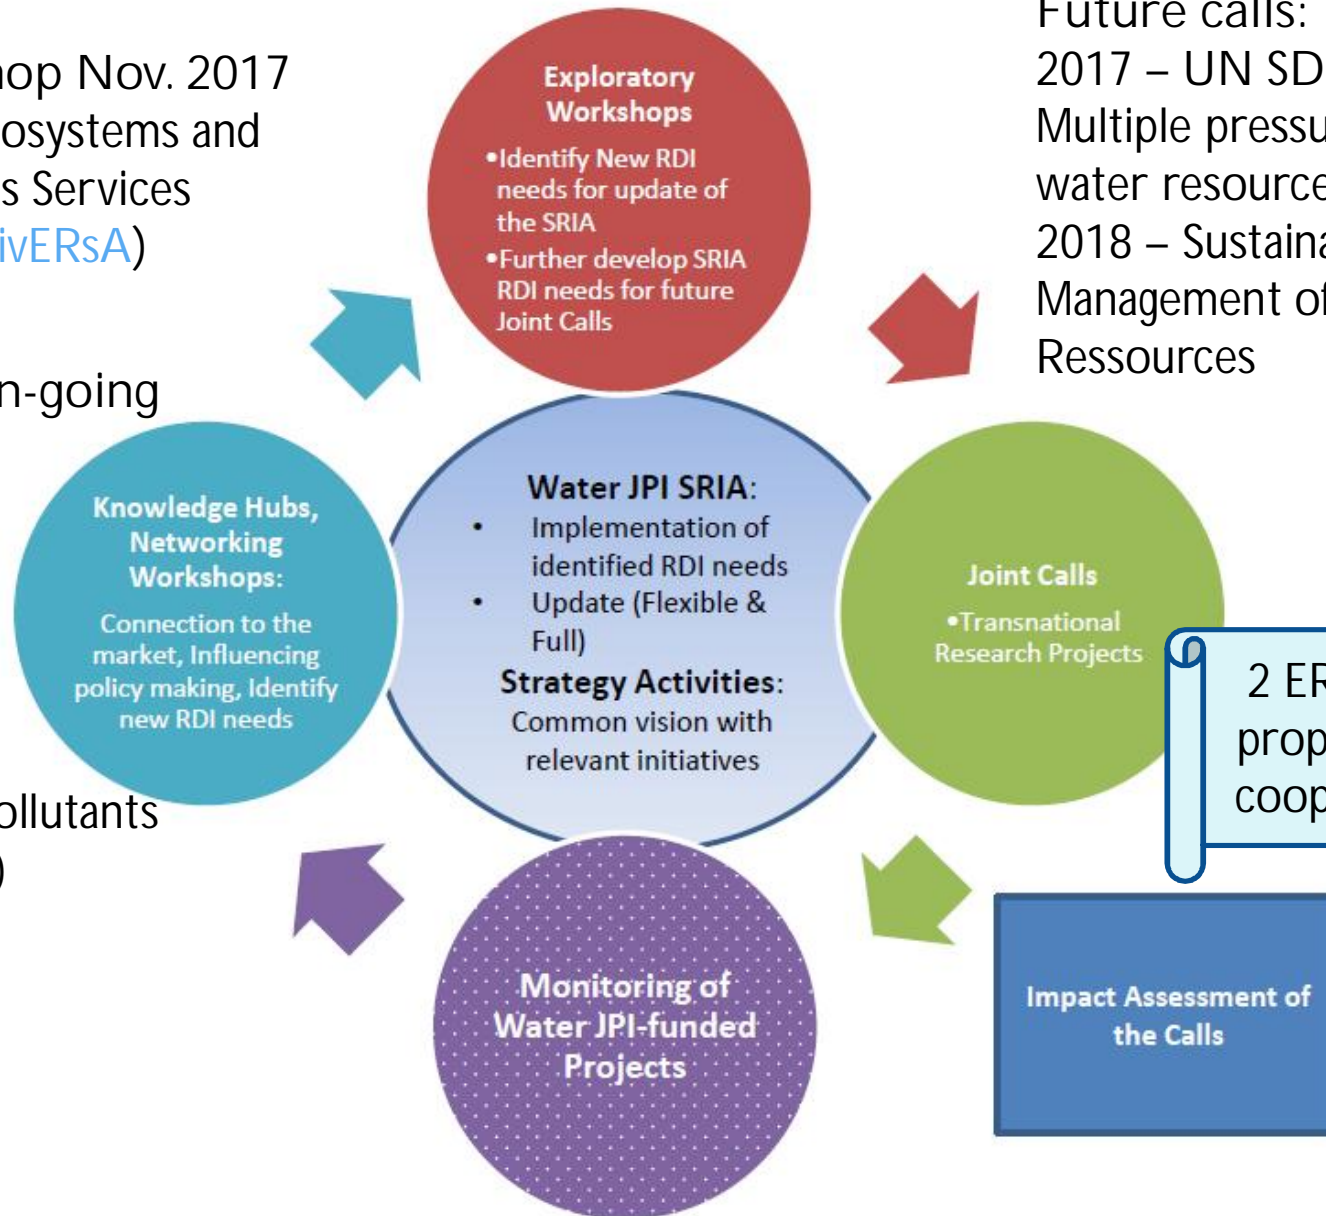

à 21 projects funded (18 M€)

Thematic Activities

1 Workshop Nov. 2017
Aquatic ecosystems and
Ecosystems Services
(with BiodivERsA)

Alignment of on-going
projects

2 KH:
2017 – Emerging pollutants
(JPI Oceans? AMR?)
2018 – UN SDGS

Exploratory Workshops

- Identify New RDI needs for update of the SRIA
- Further develop SRIA RDI needs for future Joint Calls

Knowledge Hubs, Networking Workshops:

Connection to the market, Influencing policy making, Identify new RDI needs

Water JPI SRIA:

- Implementation of identified RDI needs
- Update (Flexible & Full)

Strategy Activities:
Common vision with relevant initiatives

Joint Calls

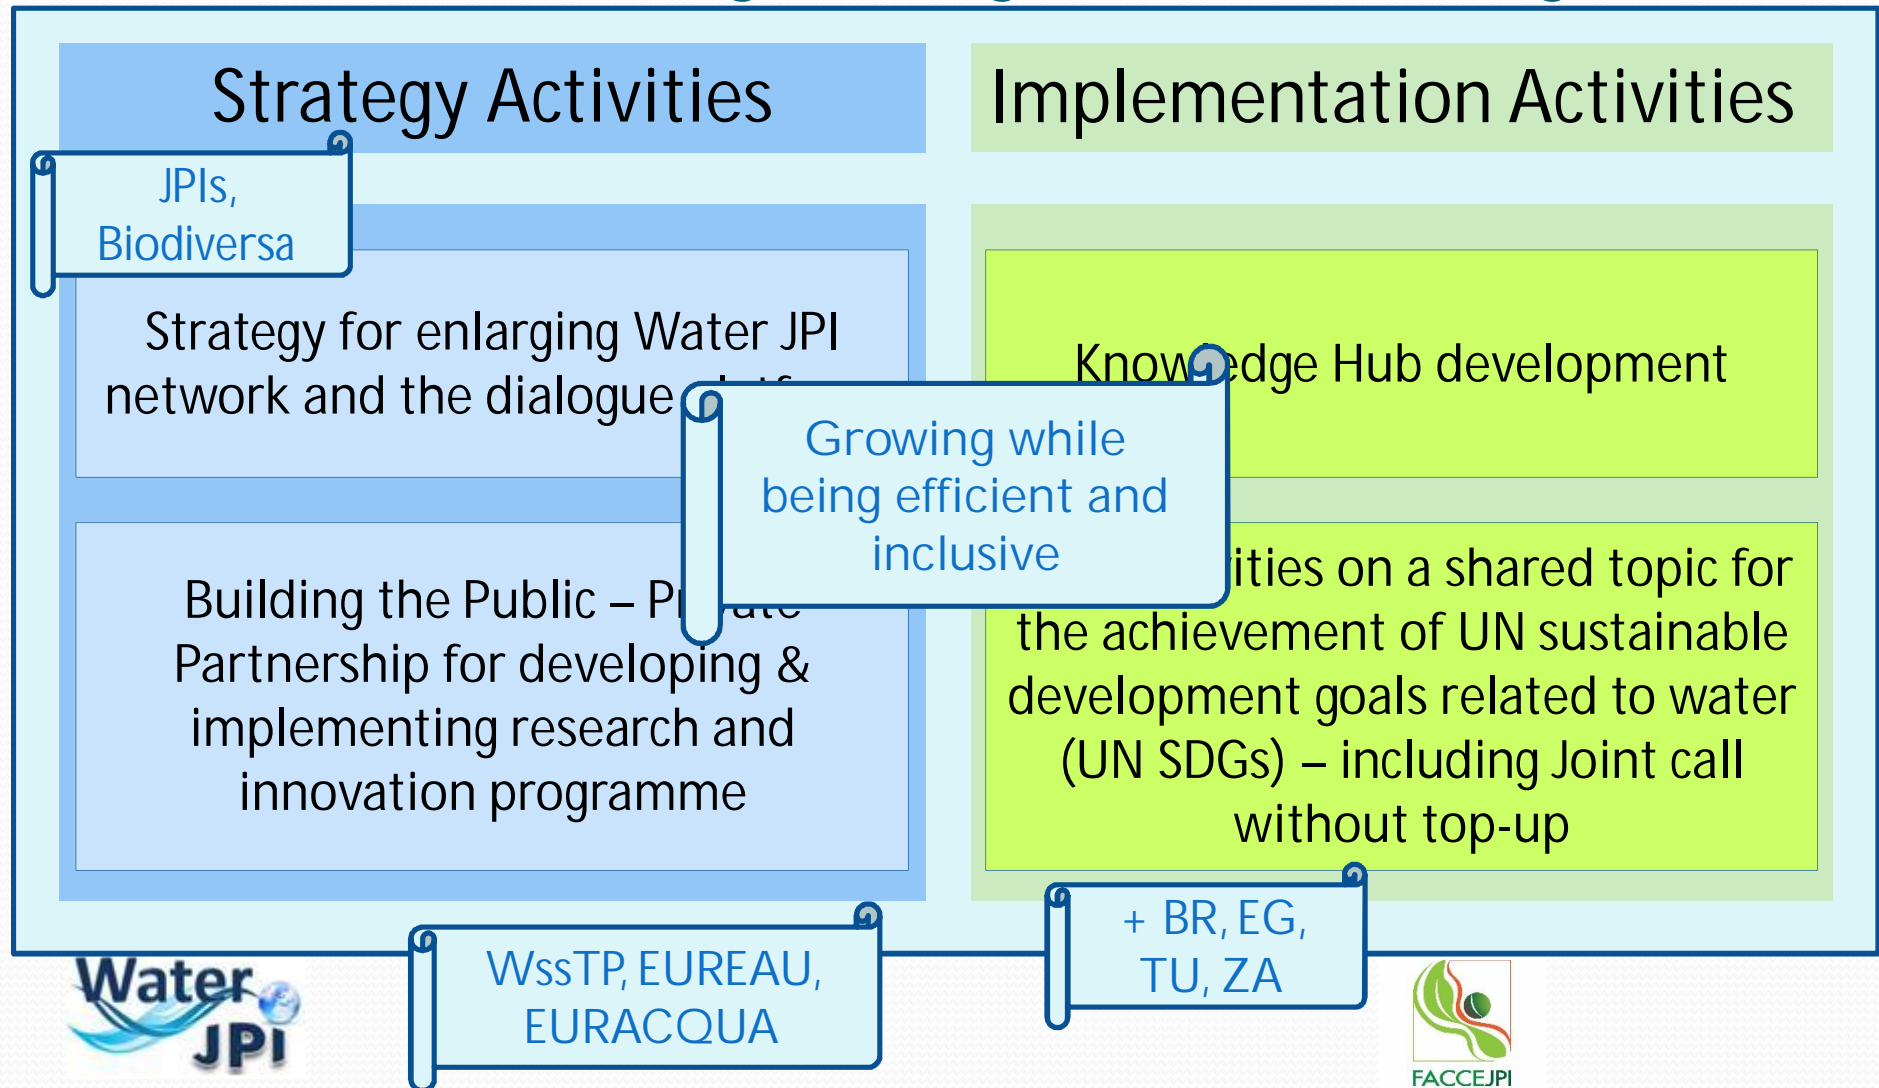

- Transnational Research Projects

2 ERANET proposals in cooperation

Impact Assessment of the Calls

Future calls:
2017 – UN SDGs – Multiple pressures on water resources
2018 – Sustainable Management of Water Resources

International cooperation vs. critical mass for solving our grant challenge!
