A2: INPUT FOR HE INTERIM EVALUATION

Experiences, achievements and needs of the
European partnerships.

Snapshot: who is here?

Snapshot: who is here?

Why are we here today?

The interim evaluation covers the first results of Horizon Europe's R&I actions funded by the EU in 2021-2023, as required under Regulation 2021/695 (Art. 52). It provides a baseline for understanding present achievements so far and will inform the design of future EU R&I instruments.

Considering the current phase of the evaluation, the goals of this session are

- Collect feedback from stakeholders on their experiences with this evaluation, provide space for discussion and facilitate mutual learning among participants.
- Identify areas where demand for action lies, discuss opportunities and risks partnerships foresee for the next few years in a rapidly evolving context.
