Ongoing: Cofunded Call
Biomarkers for Nutrition and
Health

Invest: Cofunded call on
Intestinal Microbiomics +
Knowledge platform

Explore: Series of workshops
Food and Nutrition Security
(plant/animal prod. Systems)
(2016)

Output from FNS workshops
(2018)

Impact of processing on
nutritional value & consumer
acceptance

Pillar 3

Explore: Call for
working groups on
Diet Related
Chronic Diseases

Network/invest:
overweight and
related metabolic
disease (2017/2018)

Invest: Cofunded
Call on Epigenetics

DATASHARING & STANDARISATION STRATEGY BUILDING ON ENPADASI

Determinants of diet and physical activity

Diet and food production

Diet-related chronic diseases

Funding activities – IP 2016-2018 actions scheduled for 2018 and beyond (1)

- **Joint Action:** Knowledge Platform on food, diet, intestinal microbiomics and human health
 - [part of the ERA-NET HDHL INTIMIC) Type of Joint Action: network
- **Joint Action:** overweight and related metabolic disease: food production and mechanistic aspects Type of Joint Action: INVEST.
- **Era-net Cofunded Call on Epigenetics**
- **Food and Nutrition Security – collaboration FACCE; OCEANS? EC?**
 - **Joint Action:** impact of food processing on nutritional value and consumer acceptance – preparation 2017 and launch in 2018. Type of Joint Action: invest, medium
 - Research Programme: International Bioeconomy Forum; Food2030

Determinants of diet and physical activity

Diet and food production

Diet-related chronic diseases
