

# The JPI Urban Europe

*“...to radically improve our understanding of how **socially, economically and environmentally sustainable** our urban areas are; and to support the **transition of urban areas** towards a future that maximises their **sustainability, resilience** and their **liveability** in this era of global competition for commerce, industry, tourism, labour and investment.”*

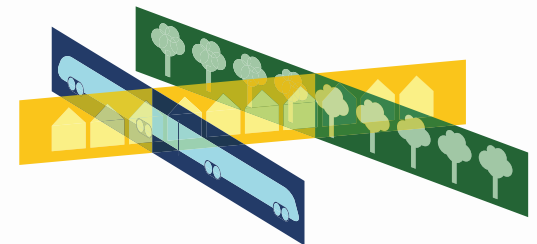

# A new paradigm in urban research & innovation

- Enhancing cities' **capacities for transition**
- Tackling the **complexity** of urban development and sustainability
- Teaming up with **cities** and **urban stakeholders**
- Raising the **impact** and supporting the exploitation of **technological** and **social innovation**

# JPI Urban Europe FP7 Project – SEiSMiC Societal Engagement in Science, Mutual learning in Cities

## Objectives

- Create a platform which enables a **structured dialogue** and **mutual learning** with citizens and urban actors on social innovation for the urban future
- Mobilize wide range of urban actors, in particular civil society in networks in 10 countries
- **Stimulate initiatives** and **projects** between the stakeholders (Mutual learning)
- Contribute to the **societal dimension** of the SRIA of JPI Urban Europe and providing input for European Urban Policy.

# Sequence of thematic SEiSMiC Workshops

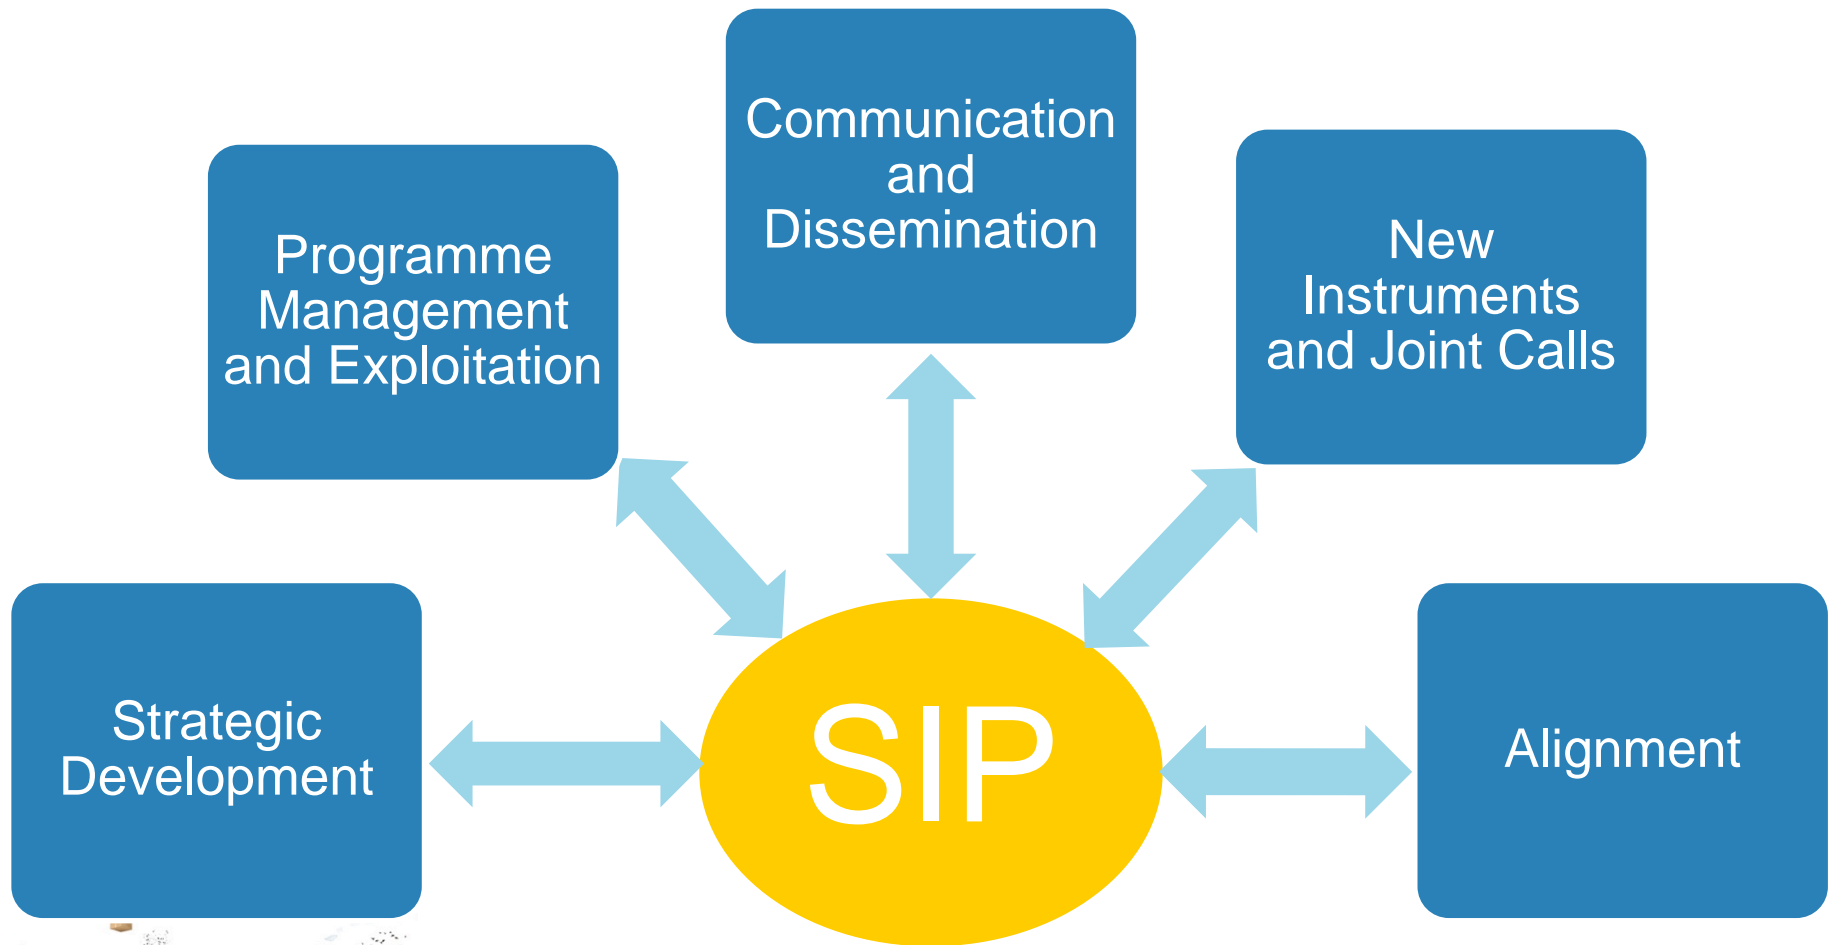

# The contribution of SEiSMiC to JPI UE

<b>SEiSMiC Spirit</b>	<b>SEiSMiC Content</b>	<b>SEiSMiC Topics</b>
<p>The basic principles underlying SEiSMiC have been emphasised for the SRIA.</p> <ul style="list-style-type: none"> <li>• new paradigm in research &amp; innovation</li> <li>• transdisciplinarity</li> <li>• co-creation and a broad stakeholder involvement</li> </ul>	<ul style="list-style-type: none"> <li>• The general role of social innovation within the SRIA has strongly been emphasised through SEiSMiC</li> <li>• Identifying and enhancing national needs and priorities.</li> </ul>	<p>The three main topics</p> <ul style="list-style-type: none"> <li>• Urban governance</li> <li>• Public Space</li> <li>• Urban Economy</li> </ul> <p>have been taken up and related research needs have been integrated into the SRIA</p>

# Role of the Stakeholder Involvement Platform (SIP) for the SRIA implementation

# SIP concept

- Establishing a **core panel** representing all stakeholder groups with sufficient regional spread across Europe
- Setting up a **process** that involves the different stakeholder groups according to their logic and the related question
- Complementing this European level approach with **national consultations** to mobilise, involve and inform the national communities
- Building up a stakeholder database for dissemination
