

⋮
**Preserving and restoring biodiversity as our natural heritage
Using our natural capital for ensuring sustainable service delivery
and developing Nature-based solutions**

-
**BiodivERsA skills to further support the EU to better position itself at
global level to more effectively achieve these goals**

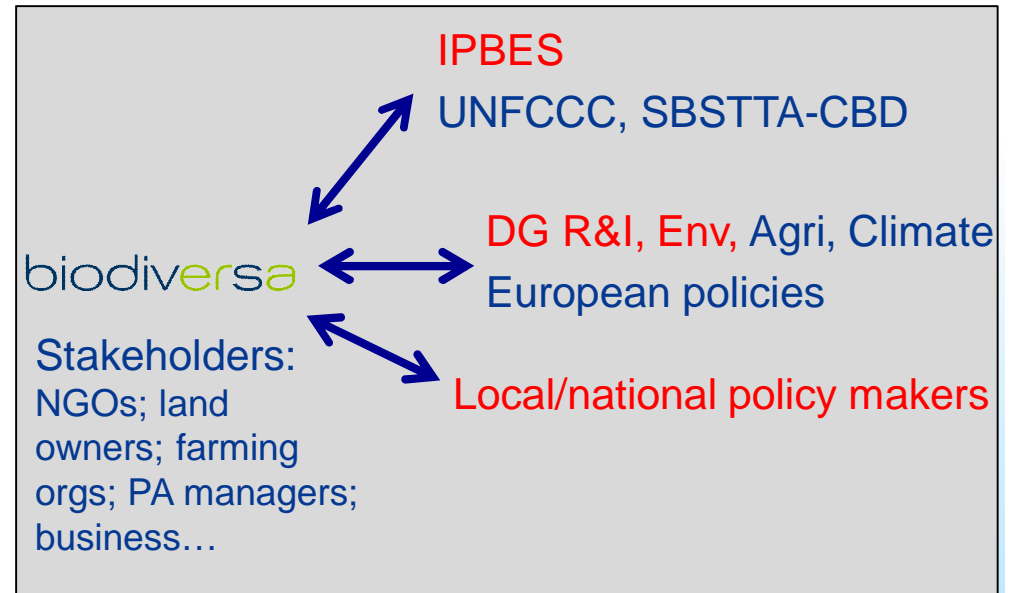

Speaker: Xavier LE ROUX (BiodivERsA Coordinator & CEO)

Annual Joint Programming Conference 2017 (Brussels, November 8th, 2017)

Session 2: Environment and Climate Change

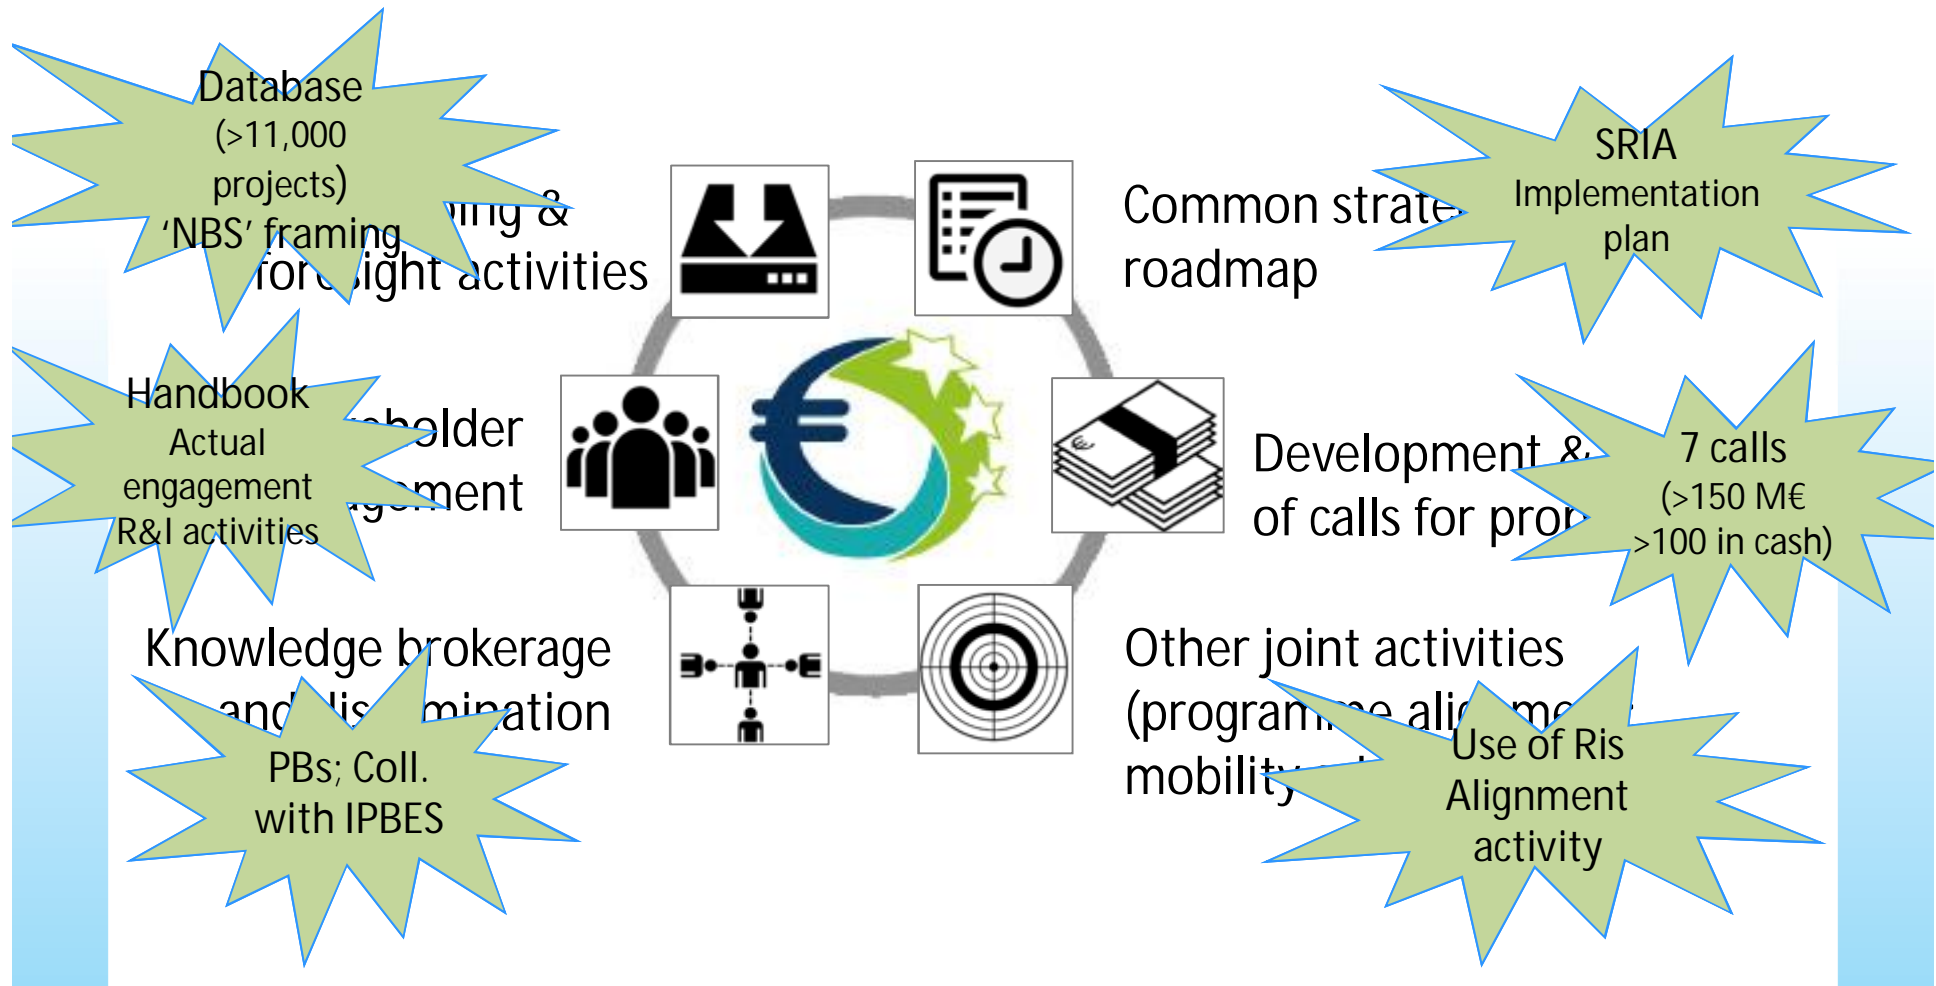

biodiversa **Role in the policy landscape**

Activities relevant to ≠ key SDG_s

(Azote Images - Stockholm Resilience Centre)

Tasks and outputs:

Emerging challenges, new strategic directions:

BiodivERsA SRIA produced in 2016

Conservation-management-use

CT1 - Better knowledge on biodiversity, its dynamics and its adaptation capacity to global change: a basis for supporting biodiversity conservation and restoration

CT2 - Biodiversity: a fundamental asset for the functioning and resilience of ecosystems, provision of ecosystem goods and services, and improvement of human well-being

Nature-based Solutions

Approach for collaboration with other initiatives (ongoing !)
