European Biodiversity Partnership

Biodiversa+ The European biodiversity partnership

General overview

Sophie Germann,
Biodiversa+ operational manager for biodiversity
monitoring & research

PKH Workshop, 11-12 March 2025, Brussels

biodiversa+

European Biodiversity Partnership

*Supporting excellent biodiversity research
with an impact for policy and society*

83

Partners

research programmers, funders,
and environmental policy actors

41

Countries

20

13

2005

21

14

2010

BiodivERsA 2

BiodivERsA 3

Biodiversa+ (2021-2028 for now)

Research actors

- Ministries in charge of research
- Research funding organisations

Policy actors

- Ministries in charge of environment
- Environment protection agencies

NEW

Budget (growing)

165 M€ EC budget (30%)
385 M€ min. partners contributions (70%)

BiodivERsA 1

BiodivERsA 2

BiodivERsA 3

Biodiversa+ (2021-2028 for now)

NEW

Promote and support
transnational
biodiversity
monitoring

Promote and support
R&I programs and projects

Better connect
R&I programmes
and projects
to policy

Promote and support
Nature-based Solutions, and
valuation of biodiversity in
private sectors

Internationalisation
of European R&I

Joint research calls:

At least
6
calls over 7
years

>40
M€ each

ca. **34**
projects per
call

Larger amplitude
~ 40 participating
funding organisations
from ~ 33 countries

Regular yearly cycle

Call webinar: avg. 870 participants
+ Targeted webinars for countries
with lower participation/success rates

Clustering workshops
Capacity building: data
management, open science,
science policy...

Biodiversa+ goes further

Pilots Projects

Six experimental implementation projects testing new approaches to biodiversity monitoring, paving the way for harmonised monitoring systems across Europe

Knowledge Hubs

Two expert groups, focusing on biodiversity and climate change, and on biodiversity restoration, fostering collaboration and knowledge sharing to enhance impact

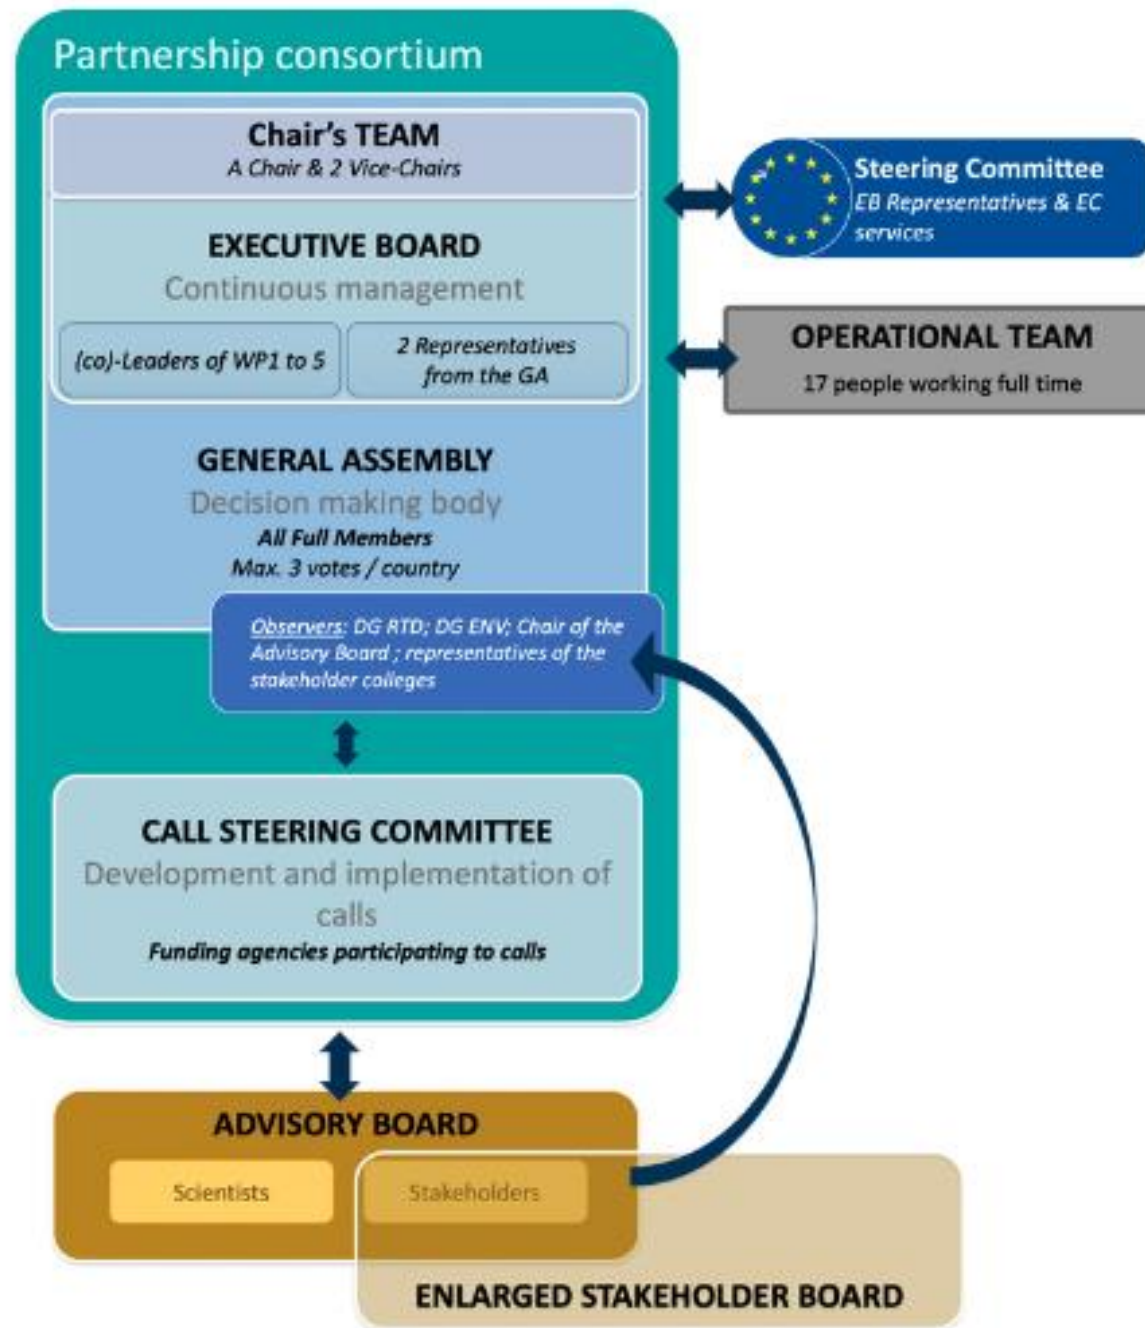

IPBES Support

One task force at IPBES, the “IPCC for biodiversity”, promoting the uptake of knowledge gaps by research and feeding global IPBES assessments with research results
