

Training Course:

**Using Foresight in
Public-Public-Partnerships
(P2Ps)**

February 20th – February 21st 2017, Vienna

ERA-LEARN 2020 offers the second training course on the application of foresight-processes for trans-national coordination of strategic research and innovation. The aim of this training course is to empower management structures of Public-Public-Partnerships in their endeavor to develop, align and update their Strategic Research (and Innovation) Agendas in the trans-national context of Joint Programme Initiatives.

The training course is organized as intensive 2-day personalised on-site seminar. It will illustrate how to set up a foresight process and to choose appropriate methods and techniques that fit to the aim of the foresight exercise. Participants will have the opportunity to work on a real-case theme to learn how to apply a set of core techniques and reflect upon them.

Benefits for participants

- Support for the formulation or update of Strategic Research Agendas of Joint Programme Initiatives
- Support ERA Nets und Article 185 Initiatives in their strategic activities

Learning Experience

- Participants will get a clear understanding of Foresight and learn about the potential of Foresight in planning trans-national research programmes
- Participants will learn how to plan and set-up Foresight processes
- Participants will get an overview of methods of relevant fields of expertise
- Participants will learn and experience the core elements of a strategic foresight using scenario techniques by applying it to a real world case.

Target Groups

- Representatives from JPI management and governing bodies responsible for implementation of Strategic Research Agenda and for evaluation

- The training is open for policy makers in preparation of an ERANET, ERANET Managers and Managers of Article 185 Programs
- Participation from countries with less experience in trans-national joint programming is explicitly encouraged

Costs

- There are no participation fees involved.
- Travel and accommodation costs have to be borne by participants

Applications for participation

- Participation is limited to 25 participants
- Registration will be open to January 20, 2015 at:

<https://www.era-learn.eu/events>
