

European Partnerships and KICs – examples of cooperation

26 Feb 2026 – FINANCIAL SUSTAINABILITY WORKSHOP 2026

A body of the European Union

Collaboration is key to competitive and resilient mobility ecosystems

- Expertise and impact thanks to **5 priority domains**
- **Public private collaboration** to align solutions with cities and regions' challenges
- Close **alignment with EU policies** and initiatives

With over **420 pilots** and more than **500 supported startups**, we are supporting change in areas related to the following clusters:

Cluster 2

- Social transformation and resilience

Cluster 3

- AI, data, robotics
- Raw materials

Cluster 5

- **Clean Hydrogen**
- **Driving Urban Transitions**
- Batt4EU
- **Europe's rail**
- **CCAM**
- Zero emission waterborne transport
- Zero emission road transport

CCAM partnership

- **Participation in CCAM activities**
Attend member meetings and contribute to working groups shaping upcoming HE CCAM calls.
- **Strategic alignment and programme shaping**
Use CCAM partnership insights and project results to inform EIT UM's strategy and programme design, particularly in public & shared mobility and urban logistics.

EU Rail JU

Potential to collaborate around:

- **Networking management** planning in a multimodal environment
- Sustainable and green **ecosystem**
- **Freight and rail services**
- New approaches for **guided transport** modes

Clean Hydrogen Partnership

- Connect R&I to deployment across programmes & governance Levels
- Ensure **consistency** in objectives and scope
- Avoid **duplication of activities or funding**
- Identify **potential synergies between programs**
- Strengthen complementarity in supported projects
- Improve **transparency and procedural alignment**

EIT UM – DUT areas of collaboration

EIT Urban Mobility (EIT UM) is in the process of entering into the Driving Urban Transition (DUT) partnership as an Associate Partner, contributing to the following activities within the **15-minute City (15mC)** transition pathway:

Driving Urban Transition (DUT) partnership collaboration

The collaboration offers several key benefits including:

DUT will benefit from EIT UM's commercial exploitation and market readiness expertise, access to **new stakeholders from business/industry/start-ups** for DUT calls, and strategic input to innovation and mobility-related activities and policies.

EIT UM will benefit from strategic **market intelligence, policy insights and topical expertise** derived from the DUT 15-min City project portfolio to support EIT UM activities.

Mutual benefits:
Opportunities for joint activities and exchange on mobility-related topics, stronger dissemination, visibility and ecosystem outreach as well as joint policy recommendations.
