More Information:

[European Partnerships website](#): This is the corporate webpage dedicated to European Partnerships under Horizon Europe. This page gives you access to general information on policy developments linked to European Partnerships.

[ERA-LEARN website](#): ERA-LEARN is a consortium funded by the European Commission. Its role is to support research funding organisations, policy makers and researchers by providing general information and services related to European Partnerships. Their website is a comprehensive source of practical information on the implementation of European Partnerships, in particular co-funded partnerships.
